Designed Security, Inc. announces the Entry Sentry tailgate detection system. Affordable, versatile, and easy to install, Entry Sentry uses 32 infrared sensors to detect tailgating through any door or hallway, setting off an alarm when more than one person enters at a time. Its advanced sensor technology recognizes inanimate objects, while adjustable sensitivity helps eliminate false alerts. This smart and simple solution can be configured to trigger local or remote alarms and integrates with access control systems.

The New Product Showcase (NPS), held each year at ISC West, is sponsored by the Security Industry Association (SIA) to recognize the best security product innovations. This year's competition included 76 entrants and was judged by an esteemed panel of 22 judges comprising dealers, specifiers, end-user companies, distributors and practitioners with a minimum of 10-years industry experience.

“The Security Industry Association is proud to promote the development of products that make our world safer,” SIA Chief Executive Officer Richard Chace said. “We congratulate each of the winners for their impressive technological achievements, and we thank all of the competitors for their important contributions to the industry.”

The NPS category winners included:

Monitoring: Broadband Discovery Systems for the Merlin LE

Video Storage and Distribution: Pivot3 for Serverless Computing

Access Control: EC Key for the EK 4 Enterprise Relay

Integrated Software, Products and Systems: Vidsys for RiskShield

Intrusion Detection: Designed Security for the Entry Sentry Tailgate Detection System

Fire and Life Safety: (tie) FireLite Alarms by Honeywell for the IPDACT-2UD FireWatch Series IP Communicator; System Sensor for the CO1224T CO Detector with RealTest

OEM: Pentax for the 1.3 Megapixel Varifocal Plus Lens

False Alarm Solutions: Nascom for the Universal Flip Switch

IP Devices, Products and Software: Panasonic for the iPro WV-NP502 Megapixel Fixed Network Camera

Video Devices: TimeSight Systems for Video Surveillance Appliances

Video Analytics: Behavioral Recognition Systems for AISight
